The image displays a vast array of traffic signs, categorized by type and function. The signs are arranged in a grid-like fashion, with each sign accompanied by its name in Cyrillic and Latin alphabets. The categories include:

- Regulatory Signs:** Prohibitory signs (e.g., no entry, no parking) and mandatory signs (e.g., priority, speed limits).
- Warning Signs:** Signs indicating potential hazards or road conditions (e.g., narrow road, pedestrian crossing).
- Informational Signs:** Signs providing directions, distances, and other useful information (e.g., road number, distance to next town).
- Specialty Signs:** Signs for specific locations or events, such as the 'Combor Sombor' logo and various local business signs.

The signs are presented in their original colors and shapes, with some accompanied by their respective text labels in Cyrillic and Latin alphabets. The collection is extensive, covering a wide range of traffic signs used in various countries.

The diagram illustrates the traffic sign system in Montenegro, categorized into four main groups:

- Red and Blue Signs:** Includes signs for road names, distances, and directions. Examples include "BEOGRAD", "LJUBLJANA", and "ZAGREB".
- Yellow and White Signs:** Includes signs for priority, such as "PRIORITY" and "YIELD".
- Blue and White Signs:** Includes signs for additional information, such as "ONE-WAY" and "NO PARKING".
- Supplementary Signs:** Includes signs for additional information, such as "TRAFFIC LIGHTS" and "PARKING".

The diagram also includes a small map of Montenegro showing the locations of the signs and a table of supplementary signs.
